

## 1. Choose the FLOW-TF

### Use the FLOW-TF Airbrush for:

General airbrushing, fishing lures & fishing baits and RC Car bodies etc. This is our most versatile airbrush set!

### Includes:

- 0.3 / 0.5 / 0.8 mm Nozzle/Needle Sets
- 2 / 5 / 13 cc Paint Cups
- 1.8 m Braided Hose

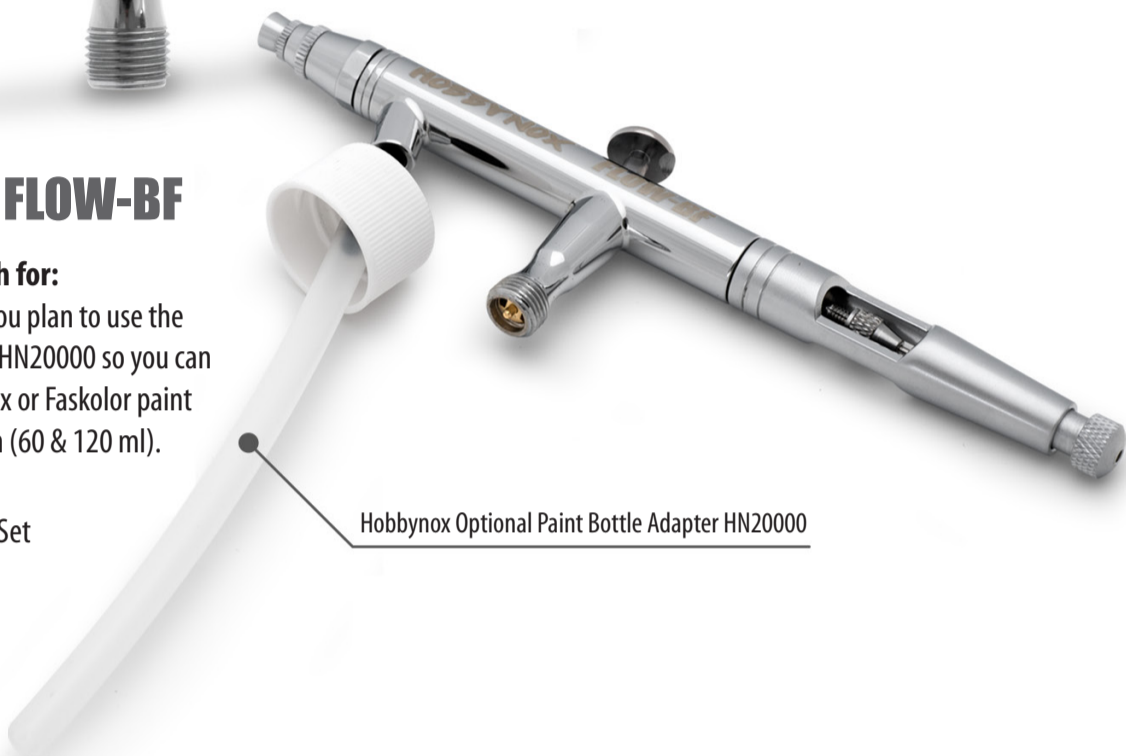

## 2. Choose the FLOW-BF

### Use the FLOW-BF Airbrush for:

General airbrushing when you plan to use the Hobbynox optional adapter HN20000 so you can attach the Hobbynox, Createx or Faskolor paint bottles direct to the airbrush (60 & 120 ml).

### Includes:

- 0.5 mm Nozzle/Needle Set
- 22 cc Glas Jar Paint Cup
- 1.8 m Braided Hose

## 3. Choose the TARA

### Use the TARA Airbrush for:

General small detail custom airbrushing. The TARA has a different nozzle design compared to the FLOW-TF/BF that is optimized for a finer atomization of the paint and thinner viscosity paints. It can be used with our Hobbynox paints but they need more reducer than with the FLOW-TF/BF airbrushes.

### Includes:

- Micro Pressure Control (MPC)
- 0.2 / 0.3 / 0.5 mm Nozzle/Needle Set
- 2 cc Paint Cup
- 1.8 m Braided Hose

## 4. Choose the RUBY

### Use the RUBY Mini Spray Gun for:

- When covering is not enough with any of the above airbrushes.
- Spraying larger models with our Hobbynox airbrush colors or automotive 2K urethane base- and clearcoats.
- Spraying Bittydesign Liquid Mask

### Includes:

- 0.8 mm Nozzle/Needle Set
- 125 cc Plastic Paint Cup with Threaded Lid
- 3 m Braided Hose
