

# RIO EP 2.4GHz

Ready-to-Run FE Superboat

Now includes a  
**Tactic TTX300**  
2.4GHz Radio!

## Fast, Easy Fun!

The Rio EP offers the lean, powerful looks of a superboat combined with the ease of an RTR. It's assembled and ready to go straight from the box to your favorite pond or lake. A water-cooled 550-size motor and 25A ESC deliver smooth acceleration and impressive top-end speeds—and control from a Tactic TTX300 3-channel radio complete with 2.4GHz dependability, push-button linking and a throttle fail-safe.

### The Rio EP Superboat includes:

- Finished, ready-to-run ABS hull with built-in drain plug, aluminum trim tabs and surface drive system
- Tactic TTX300 3-channel radio with TR325 receiver and mini steering servo
- Factory-installed power system, including:
  - 550-size, water-cooled motor
  - 25A forward/reverse ESC with stutter-bump warning system, Kyosho battery, bullet motor and universal radio connectors\*
- Complete hardware
- Injection-molded display stand

\* Only for use with 27-turn, brushed stock motors

Stock Number: AQUB1801

### Specifications:
