2 Configurations , 2 ways to play

X4 Air + Cellphone + Relay

X4 Air + Transmitter (option)

X4 Air + Cellphone + Relay

Be unrestrained by range limits and fly higher. Expand your horizons with the mobile relay device and increase flight and FPV range to 400 meters.

X4 Air + Transmitter (option)

Paired with the H906A transmitter for more precise and comfortable handling.

A 2700 mAh capacity battery provides 20 minutes of satisfying flight on a single charge.

Follow Me

The camera follows you now. "Follow Me" turns you into a mobile photographer with a personal cameraman: the X4 Air

Automatic Take-Off Return Home

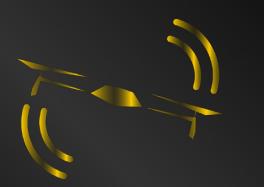

The X4 Air is capable of taking off Automatically and will Return Home if the 2.4gHz flight control signal is broken.

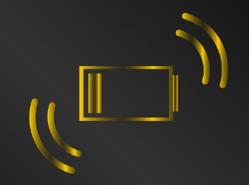

.1

Headless Mode

Fly like a veteran, whether you be a novice or expert flyer. Initiate in Expert Mode for more sensitive transmitter and drone response.

Flight Control Failsafe

If the drone loses its connection with the transmitter for 3 seconds or more, it will automatically return home and land.

Low Power Failsafe

The X4 Air will determine whether to automatically Land or return home, based on how much power it has left.
